Amerika

Über die Messe

FESPA Brasil, a dedicated exhibition for the wide format and textile printing sectors! This trade show will bring to print solution providers a comprehensive display of wide format print technologies. The exhibition co-located with ExpoPrint Digital, which covers the commercial digital printing market - FESPA Brasil aims to deliver leading industry manufacturers who will be demonstrating the latest product launches and solutions for wide format digital printing, textile printing, garment decoration, screen printing, signage and digital signage. Business owners operating in these sectors have four days to discover the range of print applications and opportunities, talk to suppliers and make business decisions to boost the development of their company. FESPA Brasil will be the ideal place to see the latest product developments, do business and engage with the industry.
