

# WTP – WIRELESS TECHNOLOGY PARK

## Exhibition and Conference for Wireless Communications – Technology and R&D

---

NATIONAL TRADE FAIR

May 2020

Tokyo, Japan

### GENERAL OVERVIEW

---

#### MAY 2020

##### Location

##### Tokyo Big Sight

3-11-1 Ariake, Koto-ku,  
135-0063 Tokyo,  
Japan,  
Asia

---

##### About the expo

Wireless Technology Park (WTP) is Japan's largest-scale annual event that focuses on the latest R&D of wireless communication technologies. In cooperation with public and private sectors including educational and research institutes, WTP, which consists of an exhibition, seminars, and Academia programs, will introduce state-of-the-art technologies that expand the possibility of new business such as 5G and IoT, in order to help promote world-leading R&D.

##### More Facts

###### Show type

National trade fair

###### First year of expo

2006

###### Branches

Information Technology, Communication Technology

###### Products / Sectors

High speed wireless LAN / IEEE802.1x / Wi-Fi, WiMAX / mesh networks/ M2M, beyond 3G/4G technology, iBurst / PHS infrastructure, disaster measurement / emergency medical network technology, visible light communication technology, ultra wideband (UWB) technology, bluetooth, RFID/ IC tag / sensor network, digital broadcasting technology, satellite communication technology, navigation / GPS / location search, RF materials and modular component, VoIP, adhoc wireless network, gigabit IPv6 network, wideband millimeter wave access system, stratospheric wireless relay network, software wireless technology, security / authentication, ITS / telematics, motion image distribution technology, high quality digital picture technology, test

equipment, network, management and control, materials and parts

---

**Open to**

Trade visitors

---

**Frequency**

Annual, with several trade fairs

---
