About the expo

Advanced Engineering show now in Finland! Messukeskus in Helsinki is transformed to a comprehensive venue for the future of technology and innovation. During two intensive days we look forward to create an arena with a focus on high-tech engineering, innovation, development and the future of technology. The show focuses on creating an opportunity for you to do business and create business contacts. We offer you the opportunity to see the very latest solutions across industries, meet the leading suppliers and discover technological solutions that streamline every step - from development to design and manufacture.
