Europe

---

##### About the expo

The FAST Exhibition is a specialist event configured to serve visitors with a specific interest in fastening and bonding for manufacturing applications across every industrial sector. Typically visitors are design engineers, production professionals, senior manufacturing industry bosses and fastener buyers who have made a journey for the express purpose of discovering new and better ways of doing things in fastening, bonding and assembly, with new and better suppliers. If you consider your business to be amongst the latter, you should exhibit!
